🗡 Adventure   🧭 Trekking	

This trek takes you deep into the jungle of Kerinci Seblat National Park, home to some of the last remaining Sumatran tigers. The chance of spotting one is obviously very slim, but the adventure is well worth it: as you hike along ridge paths, cross streams, pass incredible waterfalls and even plunge into the magnificent turquoise waters of Lake Kaco, the sheer beauty of the wilderness will leap out at your eyes!

You're bound to see gibbons, hornbills and many other varieties of birds and wildlife. If you're very lucky, you'll be able to get close to the bear and even the Sumatran tiger, but you're still guaranteed to spot their tracks or scratches, signs of their recent passage.
